About This Game

I wanted to create a Real Time Strategy that is accessible and free from stressful clicking, but still have competitive gameplay.

Gameplay: Money will tick in as time goes by, you can then buy soldiers from a hand of random cards. Each game is a quick 5 minutes match, the winner is declared by who is holding most flags at the end.

Features

- 2 player online versus.
- Practice mode against the computer.
- 10 maps.
- 22 soldier and building types.
- Editor tools for creating levels and voxel models. Play your custom levels against AI.

As with any small indie game, you cannot expect there to always be available players online. Try run the game when new updates are out, or arrange games against friends.

Technical Facts

Input: Mouse & Keyboard, Mouse only
